15 | Utah County Fair August 15-18

15 | Planning Commission @ 6 PM

20 | Bookmobile @ 5-6:30 PM

21 | Recycling Day

22 | City Council @ 6 PM

## YOUR LOCAL GOVERNMENT INFORMATION STATION

*Vineyard City has elected officials and staff who work hard each day to assure that the City is running and developing smoothly and that your needs as a resident are being met. However, local government can sometimes be a bit of a mystery to those who aren't involved in it daily. So we've created GOV101 to demystify it a bit. Every month, you can come here to find out more about what your local government does everyday to make Vineyard great!*

### BUILDING PERMIT

#### BUILDING DEPARTMENT

As our city grows, more and more residents are interested in finishing their basements. In addition to it being required by the International Residential Building Code, getting a building permit benefits the home owner greatly. A permit can protect the residents with insurance claims and allows you to keep the value once you sell the home. A permit application and project plans are required for each building permit submittal. Additional details may be necessary depending on the project.

Applications can conveniently be submitted through our [website](#). Once submitted, our Building and Planning Departments will review the application on a first come first serve basis. The review period is typically five business days. For questions about submittal requirements you can call or stop by the office.

Many residents intend to rent their basements as Accessory Dwelling Units (ADU). You must submit an application to the Planning Department online at our website. There are different variables to qualify your basement as an ADU. Basement walk-outs, parking, and lot set-back requirements can all affect your ability to use your basement as an Accessory Dwelling Unit. If you have questions you can contact the Vineyard Planning Department.

We have no shortage of information on how your local government works that we want to share with you, but if there is something specific you'd like to learn more about, please reach out to us by phone at (801) 226-1929 or by email at [info@vineyardutah.org](mailto:info@vineyardutah.org).

## SPLASH PAD

We are so excited to have our new 18-acre park and splash pad open to the public! We hope everyone is enjoying these new amenities. In an effort to keep our park a safe and clean place, please keep in mind the following rules...

- Park hours are 5:00 AM - 11:00 PM
- No pets on or near the splash pad at any time
- Swim diapers are required for those children that are not toilet trained
- Diaper changing is not allowed within the splash pad area
- No running or roughhousing on the splash pad
- No bikes, scooters, skate boards, or similar recreational equipment in the splash pad
- No food, candy, gum, beverages, or glass containers near the splash pad
- Do not enter the splash pad if you have a communicable disease or an open cut
- Splash pad may be closed at any time for maintenance or weather concerns

## PAVILION RESERVATIONS

Vineyard now has four pavilions available to rent! There are three at the new Vineyard Grove Park, and one at Gammon Park. Pavilions can be reserved by submitting the necessary form and payment to the city office building.

## SHERIFF'S DEPARTMENT

### NEIGHBORHOOD WATCH

The Sheriff's Department is looking for volunteers to head Neighborhood Watch programs in their communities. If you are interested, call the Vineyard City office at 801-226-1929.

## GREEN WASTE DISPOSAL

Improper disposal of green waste is not only illegal (Violation of Vineyard Municipal Code: 8.04.010 K - Garbage Regulation) but is a fire hazard as well. Discarded green waste will heat up as it decomposes, creating a potential for spontaneous combustion. To properly dispose of your green waste (Grass clippings, bark, leaves, weeds, etc...) the following options are available in addition to using your general waste can:

### Timpanogos Special Service District

Residents may drop off green waste free of charge. Must bring an ID and a city utility bill showing your address.

Restricted materials: [www.timpssd.org](http://www.timpssd.org)

6400 N 5050 W, American Fork

Hours of operation for accepting Green Waste:

Wednesday-Friday 7 AM-5 PM

Saturday 7 AM-4:30 PM

CLOSED Sunday-Tuesday

### North Pointe Solid Waste Special Service District

Fees are available on their website:

[www.utahcountygabage.org](http://www.utahcountygabage.org)

200 N 2000 W, Lindon

Monday - Friday 7:00 AM - 5:30 PM

Saturday 7:30 AM - 3:30 PM

## THE WELLS @ VINEYARD

The Wells at Vineyard project is making progress, with all three of the planned groundwater wells currently under construction. Drilling is wrapping up and well development is underway. In late August, crews will start installing the 3-mile pipeline that will connect the wells and deliver high-quality water to local residents. You can visit [www.thewellsatvineyard.com](http://www.thewellsatvineyard.com) for project updates and more information!

## UTAH COUNTY PET REGISTRATION

Vineyard City follows Utah County guidelines for pet licensing. All dogs in the city must have a dog license with the North Utah Valley Animal Shelter. In order to obtain your license, you must take an I.D. and proof of current rabies vaccination. With an increase in lost dogs around Vineyard, we would like to provide you with some tips to avoid costly citations and shelter fees.

- Have a current license with the North Utah County Animal Shelter
- Have proof of current rabies vaccination on your dog at all times

Licenses can be purchased at multiple locations around the county, as well as some veterinary offices. Visit the North Utah Valley Animal Shelter [website](#) for locations and additional information.

## VINEYARD HERITAGE COMMISSION CORNER

### HOW THINGS CHANGE - BUT DON'T REALLY

As our Vineyard boys plan for the summer scout camps, hikes, and other outdoor adventures, carefully preparing every needful thing such as light-weight sleeping bags neatly rolled tight, water purification straws or tablets, specially designed hiking boots and light-weight backpacks, freeze-dried foods, etc., it would be good to remember another young man who also did his best to prepare for a similar experience nearly 100 years ago.

"My main event this year was...hiking up the West side of Timpanogos, over cliffs, etc., there being no trail, then down the east side...

We planned to stay about a week and it was therefore necessary to roll our food up in our quilts and blankets and place them over one shoulder. We would make a sort of sleeping bag by pinning the quilts and blankets together with extra, extra large safety pins, called "blanket pins". I well remember how we would pack our eggs in whole wheat, then when the eggs were eaten, we'd cook and eat the wheat. Our cooking utensils consisted for the most part of cans, forked sticks and hot rocks." (Juel Andreasen). And our boys think they have it hard?!?! (Our Vineyard Heritage, 1999)
